Painting with the Eyes of Faith

Painting has been a lifelong passion for Robert J. Barber, and he paints as faithfully to life as he possibly can in all of his landscape and figurative works. His 3 main themes are our Landscape, our Faith, and his family. In the outdoors, Robert sees vivid displays of God's steadfastness, joined with a capacity to create anew, that very gently

calls forth a real sense of awe. Creation offers many different flavors of preaching, and opening to any of the marvels and beauties of God's handiwork is another way we can get to know Him more fully.
